

START SAVING WITH A SMART THERMOSTAT

A smart thermostat is a Wi-Fi enabled device that “learns” your habits to help you manage home heating and cooling costs. It adjusts your HVAC equipment based on your home’s unique energy profile and the weather outside, so you can save energy and money without sacrificing comfort. A smart thermostat can save up to \$120 annually and typically pays for itself in two years.

For a limited time Mount Horeb Utilities residential electric customers can purchase a new, currently-qualified smart thermostat and earn a \$25 rebate from the utility. To receive your incentive please complete and return the form below with proof of purchase and the model number.

EARN A \$25 BILL CREDIT TODAY!

You may also be eligible for an additional \$75 dollars from Focus on Energy. Visit FocusonEnergy.com/smart for more information.

SMART THERMOSTAT REBATE

To request your bill credit, return this completed form along with a copy of your receipt to our office, or scan and email to bcarlson@wppienergy.org.

Customer Name (first, last)		Utility Account Number
Customer Street Address	City, State	Zip Code
