Cell (262) 215- 8723

Dear Water Utility Customers,

We have started our lead line replacements. IF you have not called a plumber on the list please do so. We are trying to get these lined up and moving along.

If you live on Main Street, your water lines are on hold. The state is running the highway traffic into town and I will not be able to replace the water main or lead lines until the highway projects are finished in the future.

The list of streets that we are looking at doing water main work on are as follows:

- North Second Street from Forest Street to the Dead End
- North Third Street from Forest to Park Street
- Oak Street to include Thompson Street starting at North Third Street
- East Main Street from Eighth Street to Springdale Street
- South Sixth Street
- South Seventh Street in the 100 Block

If you do not live on one of these streets and have lead, please call the plumbers to get on the list for lead line replacements.

Questions, please call my office or email me.

Thank you,

Josh Hyndman
